Missouri Baptist
MEDICAL CENTER

3015 North Ballas Road • Saint Louis, Missouri 63131 • 314-996-5000 • MissouriBaptist.org

PROGRAM MISSION/PURPOSE STATEMENT

Missouri Baptist Medical Center (MBMC) PGY1 Pharmacy Residency Program Purpose: The PGY1 Pharmacy Residency Program builds on the Doctor of Pharmacy (Pharm.D.) education and outcomes to contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions, eligible for board certification, and eligible for postgraduate year two (PGY2) pharmacy residency training.

OUTCOMES OF RESIDENCY PROGRAM

Upon completion of this program, the resident will be proficient in:

- Providing patient-specific medication management services to promote compassionate, ethical, and positive patient outcomes.
- Medication management of a variety of disease states.
- Mastering current and future marketable job skills, including organizational and time management skills and computer literacy.
- Drug information systems, formulary management, and medication use evaluations.
- Effectively educating health care professionals, patients, and students on drug related topics.
- Developing and applying problem solving skills to actual experiences. Self-education and development of a working professional career plan.

PRACTICE RESPONSIBILITIES

The resident provides complete pharmacy services in coordination and cooperation with Pharmacy Service professional and support staff, consistent with policies and procedures for operations and clinical practice, meeting all the requirements and obligations of pharmacists on staff.

The resident shall actively participate in rotation activities including: team meetings, rounds, and other interdisciplinary conferences that occur on the services of their rotations. The rotation preceptor shall be responsible to identify these opportunities and to commit the resident to effectively participate.

The resident shall identify therapeutic issues and problems and shall develop and present in-services to the medical, nursing, and pharmacy staffs addressing those issues. The resident is encouraged to seek opportunities to educate other ancillary health care practitioners, such as physician's assistants, nurse practitioners and physical therapists, etc., on subjects relating to pharmacology and drug usage.

PRACTICE EXPERIENCES

Missouri Baptist Medical Center PGY1 Residents are required to complete 12 months of practice experience rotations during their residency. Approximately ten of the twelve months of practice experience must be completed at MBMC. Length of rotation may vary depending on the needs and interests of the resident. Additional rotations may be taken at affiliated institutions to meet specific skill needs and interests of each resident if approved by the program director.

Required Rotations

Five Weeks

Orientation
Internal Medicine
Nutrition Support
Critical Care

Nephrology

Longitudinal

Residency Education Academy
Central Staffing
Research Project
Management

Elective Rotations

Five Weeks

Infectious Disease
Internal Medicine II
Ambulatory Care
Other options may also be available depending on resident interest and local availability

RESIDENT EVALUATION

The resident meets with the Residency Program Director and their assigned mentor at the beginning of the program to evaluate their skills and knowledge and to develop an individualized plan based on the resident's previous preparation and professional practice goals. The evaluation and planning process shall be documented on the Resident Evaluation/Questionnaire and Planning Form. The resident shall meet with the Residency Program Director quarterly thereafter.

The resident must be evaluated at the end of each rotation by his/her preceptor. Three categories of documented evaluations are required.

1. Preceptor's Evaluation of the Resident

The preceptor must evaluate the resident's attainment of the learning goals and objectives for the rotation. This evaluation will determine when a resident has achieved an objective and describe the behaviors, attributes and skills of the resident during and on completion of the rotation. In addition this evaluation is used to improve the quality of future learning and practice experiences for the resident.

2. Resident's Evaluation of Learning Experience

The resident must evaluate the quality of each learning experience, including the preceptor's performance as a teacher and mentor. The resident's evaluation provides useful information to the program director regarding the

resident's evaluation of the strengths and weaknesses of the rotations, the preceptors and the residency program. It is encouraged that residents provide at least one suggestion for improvement for each learning experience in their evaluations.

3. Resident Self-Evaluation

Residents must evaluate their own performance. The resident's self-evaluation will enhance the resident's awareness of the importance of self-evaluation throughout his/her career. The Residency Program Director will assist in developing quarterly evaluations and career goals and objectives.

All of these evaluations must be completed and a face-to-face discussion held between the resident and preceptor within one week of the completion of each residency experience. It is important to complete the evaluations in a timely fashion to assure that the information contained in the evaluation is current, accurate, and timely.

Midpoint self-evaluations and snapshots are also encouraged.

Completed evaluations must be returned to Residency Program Director. If the completion of an evaluation must be delayed to allow completion of requirements or due to schedule problems, please communicate this to the Program Director.

RATINGS SCALE TERMINOLOGY	DEFINITION
Needs Improvement (NI)	<ul style="list-style-type: none">Resident is unable to perform the goal/objective without significant assistance from the preceptor and/or show improvement over the evaluation period.
Satisfactory Progress (SP)	<ul style="list-style-type: none">Resident has demonstrated the ability to perform the goal/objective with assistance and has continued to show improvement in independence over evaluation period.Satisfactory progress ratings also need to be considered in the context of the year; for example, independence on 25% of issues in the first quarter, 50% in the second, 75% in the third and >75%, but not complete independence in the fourth.
Achieved (ACH)	<ul style="list-style-type: none">Resident has repeatedly demonstrated independent (without assistance or further instruction) mastery of all facets of the learning activity to obtain "Achieved" for indicated objective.Resident has repeatedly demonstrated independent (without assistance or further instruction) mastery of all evaluable objectives to obtain "Achieved" for indicated goal.
Achieved for Residency (ACHR)	<ul style="list-style-type: none">Resident consistently performs objective at Achieved level, as defined above, for the residency.

PHARMACY SERVICE AND HOSPITAL ORIENTATION

The first four to six weeks of each new PGY-1 Pharmacy Resident's program are allocated to orientation to the mission, policies, procedures and general activities of the Pharmacy Service of Missouri Baptist Medical Center.

The orientation includes the following:

1. Hospital Orientation

The Department of Human Resources presents a basic hospital orientation. This program introduces the resident to Missouri Baptist Medical Center's mission and philosophy, policies and procedures, benefits and other general information. It also provides basic health and safety information required by state and federal law. This program is generally completed over the first two days of employment.

2. Patient Care, Pharmacy, General Computer Training

During the remainder of the first week, the residents are instructed in the use of the patient care computer system. Computer training emphasizes information organization, medication order review and entry, patient information access, database management, and communications.

3. Pharmacy Practice Duties

During the second week of orientation, the resident is assigned to work in the general pharmacy practice area to gain practical experience in pharmacy practice. The resident is scheduled to work in different areas of the pharmacy. In addition, this is an opportunity to get acquainted with the pharmacy staff.

4. Coverage

Starting the second month residents are assigned to regular pharmacy practice coverage. Residents will staff two 4-hour shifts weekly. Residents who have received their Missouri Pharmacist license will work independently. Residents who have not yet received a Missouri Pharmacist License will have limited responsibilities as described in the "Pending Licensure" section.

5. Start Dates/Calendar

The 2020-2021 Class starts the PGY1 Residency program on June 29, 2020. A detailed orientation schedule will be prepared and mailed to residents prior to arrival. During trips to secure housing, residents are encouraged to arrange time to visit the Pharmacy in May or June.

RESIDENCY PORTFOLIO

Each resident MUST maintain a Residency Portfolio as a complete record of the resident's program activities. The resident should begin to keep this ongoing notebook of activities from the first day of the program. The Residency Program Director at the conclusion of the residency-training program retains the original portfolio. Completion of this record is a requirement for completion of the program.

The Residency Portfolio shall include the following items:

- A copy of their Curriculum Vitae
- The completed Resident Evaluation/ Questionnaire and Planning Form (PharmAcademic)
- All quarterly evaluations (PharmAcademic)
- Preceptor evaluations of all rotations (PharmAcademic)
- Resident self-evaluation of all rotations (PharmAcademic)
- Resident evaluation of all rotations (PharmAcademic)
- All journal clubs and cases presented during each rotation
- A record of all inservice education or seminars given
 - Outlines used
 - Evaluations
- Residency Project
 - Project proposal
 - Grant/funding proposal (if applicable)
 - Final manuscript
- St. Louis College of Pharmacy Seminar Presentation materials
- St. Louis College of Pharmacy Residency Education Academy materials

REQUIREMENTS TO COMPLETE RESIDENCY

THE FOLLOWING ITEMS MUST BE COMPLETED AND MARKED ACHIEVED BY THE RESIDENCY DIRECTOR BEFORE THE CONCLUSION OF THE PGY-1 RESIDENCY PROGRAM

- Complete all scheduled rotations (See below for further clarification)
- Complete Advanced Cardiac Life Support
- Present and discuss a minimum of 2 journal clubs
- Present a minimum of 2 formal cases
- Present a minimum of 2 in-services to nurses, physicians &/or staff
- Educate inpatients on medications (i.e. discharge counseling, warfarin or dofetilide education)
- Participate in at least one hospital committee (not including P&T)
- Write a drug formulary review and present at P&T meeting
- Perform a medication utilization evaluation and present at P&T meeting
- Write an article for the MBMC Pharmacy and Therapeutics Newsletter
- Design, execute and report results of pharmacy practice research
- Employ accepted manuscript style to prepare a final report of practice related project
- Present at GCCP Resident Symposium
- Present at Saint Louis College of Pharmacy Resident Seminar
- Complete and present a Midyear poster
- Present at St. Louis Pharmacy Resident Research Conference
- Complete Resident Education Academy Teaching Certificate Program
- Attend at least one local or state pharmacy organization meeting
- Participate in at least one community service event

If any of the above items have not been marked completed by the residency director by the end of the residency year, the resident will not receive a certificate of completion and will therefore have not completed the residency program.

COMPLETION OF ALL SCHEDULED PGY-1 ROTATIONS

In order for a resident to complete all scheduled rotations, the resident must:

Receive a minimum of 80% “Achieved” for all educational objectives evaluated for the residency program by the end of the residency year and cannot receive more than 2 “Needs Improvement” on any objective for any goal not “Achieved”.

If the resident does not receive a minimum of 80% “Achieved” or has two “Needs Improvements” on the final quarterly evaluation, the resident will NOT have completed the program and will NOT receive a certificate of completion.

RESEARCH PROJECT

The resident shall develop and complete a residency research project. Topic and mentor selection shall be made at the beginning of the residency program. Each resident will be assigned a project mentor(s) based on the research topic selected. The resident’s mentor will serve as a guide in meeting the requirements for completion of the residency project. The resident may request the assignment of an alternative preceptor to serve as the mentor. The request shall be made to the Residency Program Coordinator.

The research project must be approved by the MBMC Institutional Review Board. The research project methodology must be presented at GCCP. The resident will present either the completed research or research in progress at the St. Louis Pharmacy Resident Research Conference. The presentation of completed research is encouraged. The oral presentation is 20 minutes followed by a 5-minute question and answer period. All participants are given feedback on their presentations by a panel of judges. The Conference is held in April or May. The presentation of completed research at another local or regional meeting is also encouraged.

The resident must also report the results of the research project in an accepted manuscript style ready for publication prior to completion of the residency year. The project shall be written using format and style consistent with publication in a professional journal, including project subject, background, methods, results, and conclusions. The manuscript must be completed and approved by the residency director no later than the last day of residency.

ST. LOUIS COLLEGE OF PHARMACY SEMINAR

A formal presentation at the St. Louis College of Pharmacy Resident Seminars is required during the residency. The resident may choose any clinical or professional practice topic. Select a topic of personal interest, preferably a clinical area where a current controversial issue exists. The formal seminar is an opportunity to develop speaking skills, and a presentation for use in job interviews.

The seminar presentation must be 45 minutes in length followed by a 10-15 minute period of questions & answers. Prepared outlines, handouts and slides are required.

Allow appropriate time for the following:

1. Selection of seminar topic
2. Literature search
3. Composition of learning objectives and presentation outline
4. Creation of handout and PowerPoint Slides

One to two weeks prior to the scheduled date of presentation, the resident must present the formal seminar to the Residency Committee for constructive criticism. A total of two practice sessions to the clinical staff before the actual seminar are required.

ST. LOUIS COLLEGE OF PHARMACY RESIDENCY EDUCATION ACADEMY

Missouri Baptist Medical Center PGY1 Residents are required to participate in resident teaching workshops at the St. Louis College of Pharmacy. Residents from all of the St. Louis area sites meet for approximately 10 sessions to discuss Abilities Based Education. The purpose of the workshops is to understand the knowledge, skills and attitudes necessary to promote student-centered, assessment-driven learning; and to use Abilities-Based Education to achieve desired ability outcomes. Residents will lecture in the elective class the following spring.

RESIDENCY PROGRAM CERTIFICATE

Upon completion of all program requirements and compliance with all conditions of the residency program Missouri Baptist Medical Center will award the resident a certificate indicating completion of the PGY1 Pharmacy Residency. Residents who fail to complete all program requirements and comply with all conditions of the residency program shall not be awarded a certificate of completion. Certificates will be presented at a banquet to honor all residents in the Saint Louis area.

BENEFITS

Residents are provided the standard MBMC benefits more particularly described below and in the Summary Plan descriptions available for download from the myBJCnet website or by request from the Resident Program Director. For detailed information on this policy, please email Laura Hamann (RPD) at: Laura.Hamann@bjc.org

In regard to benefits, it is each individual's responsibility to verify that deductions are made from the paycheck regarding benefits as well as to enroll for benefits during the enrollment period each fall.

Vacation and Leave: Residents receive a total of 23 paid workdays off and for the purposes of this policy a workday is defined as Monday through Friday. Eighteen of those days are defined as vacation or personal days. Vacation/personal days should be scheduled in advance and may be taken at any time during the year with the approval of the Program Director and the rotation preceptor. The other five days are used for time off for holidays. There are six recognized holidays, one of which you are required to staff (8 hour day). The Resident is responsible for arranging coverage of other responsibilities, including staffing, during any period of absence for vacation, educational meetings, or authorized absence with exception of urgent personal leave (i.e. sick days, funeral leave) or events attended by all residents (including ASHP Midyear meeting).

In the case of their own illness, Residents should refer to BJC Policies on Paid Time Off (PTO), Family and Medical Leave Act (FMLA), and non-FMLA leave. Total absence from any rotation for any reason, including sick days, holidays, vacation, and approved absence, should not exceed 25% of a rotation.

Paid time off does not carry over from year to year and there is no payment for any days that are not used upon leaving employment with MBMC. For purposes of this policy, the year begins on July 2, 2018. Additional unpaid leave may be available in certain circumstances, with the approval of the Program Director. Additional leave may require extension of the training program depending on the completion of the standards and requirements as set by ASHP, MBMC residency program, and the determination of the Program Director. Leave must be requested in advance of the actual leave. Additional documentation may be required by the awarding training program to suspend the award and/or accrual of service in order to calculate the time away from the training program. To obtain further information regarding how a leave relates to ASHP standards and MBMC residency requirements, contact the Residency Program Director.

Leaves of absence for personal, family and medical reasons will be granted in accordance with the BJC policies appended

thereto. Please refer to these policies for more information regarding leaves of absence. Additional training after a leave of absence may be needed for completion of program requirements. The amount of sick leave, leave of absence, or disability time that will necessitate prolongation of the training time for the Residents shall be determined by the Residency Program Director and the requirements of the pertinent programs standards through ASHP and the MBMC Residency program.

The Hospital does not provide living quarters for the Residents or their families during the training year.

Free parking is provided as assigned by MBMC Security. Permits are available in the Security office free of charge. Permits and maps will be made available during your orientation session. Make/model of your car as well as the license plate number is required for a parking permit.

While we endeavor to keep this Benefits Summary Section up-to-date, you should review the terms and conditions set forth in the applicable BJC or MBMC Policies for the most up-to-date information. In the event of any conflict between the summary descriptions set forth in this document and those set forth in a BJC or MBMC Policy, the information, terms and conditions set forth in the BJC or MBMC Policy shall govern and control.

RESIDENT HOUSING

Saint Louis offers a number of areas where pharmacy residents may choose affordable, convenient housing. Most residents choose to live in the St. Louis city/county, and generally choose apartments or other rental properties located in the south or west county suburbs along the interstate 44, 55, or highway 40 corridors. Residents may also choose to live in the city of St. Louis in the Central West End, Forest Park or other areas or a home in Illinois.

Commuting in St. Louis is generally easy even during rush hour, so the choice of housing can be based on the resident's personal needs. Assistance in locating housing can be solicited through the Human Resources office at Missouri Baptist Medical Center or through apartment "finders" services. A "St. Louis Apartment Guide" will also be included with application materials.

Preceptors and current residents can also help in selecting a community in the St. Louis area. Please ask for assistance during residency interview visits and house hunting trips in May and June prior to starting the residency.

HOLIDAYS

Missouri Baptist Medical Center provides paid time off (PTO) to Residents and other full-time regular employees on the following holidays:

- New Years Day*
- Memorial Day
- Independence Day
- Labor Day
- Thanksgiving Day*
- Christmas Day*

Residents provide practice coverage at MBMC by covering one major* holiday and two 4-hour weekly shifts. If a holiday occurs during the week, it is the preceptor's discretion to assign the day as a holiday. Residents may trade holiday coverage with other pharmacy employees, under general scheduling rules, to secure specific days or holidays off.

ILLNESS REPORTING

Should a resident be unable to work because of illness, he/she must notify his/her preceptor and the MBMC Pharmacy Secretary. Notification must be made pursuant to hospital and Pharmacy Department Policy, prior to the regular starting time. Notification must be made to the MBMC Pharmacy secretary, even for rotations at sites other than Missouri Baptist Medical Center.

FAMILY AND MEDICAL LEAVE ACT

Up to 12 weeks of unpaid job-protected leave (or up to 26 weeks of military caregiver leave to care for a covered service member with a serious injury or illness) during a rolling twelve 12 month period to eligible employees.

To be eligible for a leave of absence under this policy, an employee must have:

- Been employed with BJC or BJC affiliate for at least twelve 12 months within a seven 7 year period;

AND

- Worked at least 1,250 hours during the 12-month period prior to the commencement of the leave. Time spent on PTO or any other leave of absence is not counted towards hours worked. Uniformed Services Employment and Reemployment Act ("USERRA") covered service obligations are counted when determining length of service, and employees returning from USERRA covered service will be credited with the hours of service that would have been accrued but for the required absence.

Types of Leave

Eligible employees may take FMLA leave for one or more of the following reasons:

5. Birth of a Child: Eligible employees may take leave for the birth of their child and to take care of the newborn. This leave must be taken within twelve months of the child's birth and must be taken at one time.
6. Placement of a Child: Eligible employees may take leave for the placement (through adoption or foster care) of a child and to care for the newly placed child. This leave must be taken within twelve (12) months of the child's birth or placement.
7. Employee's Own Serious Health Condition: Eligible employees may take leave for their own serious health condition. Leave may be taken all at once, or in smaller increments on an intermittent or reduced leave schedule if medically necessary.
8. Serious Health Condition of Employee's Immediate Family Member: Eligible employees may take leave to care for a child, spouse, or parent with a serious health condition. Leave may be taken all at once, or in smaller increments on an intermittent or reduced leave schedule if medically necessary.
9. Qualifying Exigency Leave: Eligible employees whose spouse, child or parent is on covered active duty or has been notified of an impending call or order to covered active duty in the National Guard, Reserves or a regular component of the Armed Forces may take leave for qualifying reasons. Leave may be taken all at once, or in smaller increments on an intermittent or reduced leave schedule.
10. Illness or Injury of a Family Member in the Armed Forces (Military Caregiver Leave): Eligible employees may take FMLA leave to care for a spouse, child, parent or next of kin who is a covered service member and/or a certain covered veteran with a serious injury or illness incurred or exacerbated in the line of duty. Leave may be taken all at once, or in smaller increments on an intermittent or reduced leave schedule if medically necessary.

Amount of Leave

1. Eligible employees can take up to 12 weeks (see "Types of Reasons", 1- 5 listed above) for the reasons 1 through 5 listed above during any 12 month period for reasons 1-5 listed above under "Types of Reasons". The 12-month period will be measured as a rolling 12-month period measured backward from the date an employee uses any leave under this policy. Each time an employee takes

leave, BJC will compute the amount of leave the employee has taken under this policy in the last 12 months and subtract it from the 12 weeks of available leave.

2. Eligible employees can take up to 26 weeks during a single 12- month period for reason 6 listed above under “Types of Reasons” (Military Caregiver Leave). For the Military Caregiver Leave, BJC will measure the 12- month period as a rolling 12-month period measured forward. FMLA leave already taken for other FMLA reasons will be deducted from the total 26 weeks available.
3. Spouses eligible for FMLA who are employed by the same hospital/service organization within BJC may be limited to a combined total of 12 weeks of leave during any 12 month period if leave is taken for the following reasons:
 - birth and care of a newborn child;
 - placement of a child for adoption or foster care, and to care for the newly placed child; or
 - to care for an employee’s parent who has a serious health condition.
4. For Military Caregiver Leave, spouses eligible for FMLA who are employed by the same hospital/service organization within BJC may be limited to a combined total of 26 weeks of leave during any 12 month period if leave is taken for the following reasons:
 - birth and care of a newborn child;
 - placement of a child for adoption or foster care, and to care for the newly placed child;
 - to care for an employee’s parent who has a serious health condition; or
 - To care for a covered service member with a serious injury or illness.

Compensation and Benefits While on Leave

Employees, other than those excluded from BJC’s Paid Time Off (PTO) Policy or by contract, requesting an FMLA leave of absence for the employee’s own serious health condition must use 100% of their available PTO for the first five (5) consecutive days of absence (the STD elimination period) and until the employee’s short term disability (STD) benefit is approved. If an employee’s STD approval takes longer than five (5) consecutive days of absence, the employee’s PTO will not be retroactively adjusted. Employees granted other leaves under the FMLA where short-term disability (STD) benefits are not applicable must use 100% of their available PTO hours. Regardless of whether an employee receives paid benefit time during the

leave, the full amount of leave time (paid and unpaid) will be counted toward the 12-week maximum leave available in a 12-month rolling period for Family Medical, Employee Medical and Qualifying Exigency leaves and towards the 26 week maximum for Military Caregiver Leaves and all other leaves in a single 12-month period. Intermittent Leave/reduced schedules will be paid from employee’s PTO only. For rules applicable to taking leave due to a Worker’s Compensation Injury please see BJC’s Worker’s Compensation Policy.

1. During any leave under this policy, an employee will continue to be covered by BJC’s group health and other benefit plans.
2. Employees are required to use available PTO during the STD elimination period and to supplement their STD benefits in accordance with the then-current BJC’s HealthCare PTO Policy. While on an approved leave, PTO will automatically be applied to supplement STD until the employees PTO bank is exhausted. If an employee returns to work, but is not working their regularly scheduled hours, any difference in hours will be supplemented by the employee’s available PTO.
3. During a leave, employees are responsible to pay their portion of the benefits as though the employee continued in active employment. The benefit contributions due for coverage will be collected from PTO while the employee is on leave. Once PTO is exhausted the benefit contributions due will go into arrears and will be collected from the employee upon their return from leave to active employment by paying their current contribution due plus one extra contribution per pay period until all contributions are brought up to date. If the employee does not return all payments due, the arrears will become due and payable upon termination per BJC’s Employee Indebtedness Policy. Any remaining balances are due to BJC no later than sixty (60) days following the termination date.

Application for Leave

Residents should work with the Residency Program Direct to contact the BJC Leave Management Center (administered by Liberty Mutual) at 1.800-213-1580 or www.myLibertyMutual.com to request a leave covered under the FMLA. Required information will be taken during the phone call and an acknowledgement of the FMLA request will be mailed to the employee’s home by U.S. mail.

For detailed information on this policy, please email Laura Hamann (RPD) at: Laura.Hamann@bjc.org

LEAVE OF ABSENCE POLICY

Eligible employees the ability to take a job protected Leave of Absence from work if needed to care for important family and medical needs that might not be covered by the Family and Medical Leave of Absence (FMLA) described in BJC Policy.

Eligibility

- A regular full-time employee who works at least thirty-five (35) hours per pay week (or seventy (70) hours per pay period), or
- A regular part-time employee who works at least twenty-four (24) hours per week (or forty-eight (48) hours per pay period).
- Employees must be employed for 90 days at the time the leave is requested.
- Temporary or PRN employees are not eligible to take a Leave of Absence under this policy.

Types of Leave of Absence

Personal Medical Leave

1. Eligible employees who have been employed for 90 days but who have not worked enough hours to qualify for FMLA may request a Leave of Absence for a Personal Medical Leave for their own medical condition. Employees who have exhausted FMLA within the previous (12) months are not eligible to take Personal Medical Leave. Employees must contact the BJC Leave Management Center (administered by Liberty Mutual) to request a Leave.
2. Employees are eligible for a total of six (6) weeks of Personal Medical Leave in a rolling forward 12 month period starting with the first day of leave. Employees are eligible for a maximum total of 6 weeks of personal leave in a rolling 12 month period, regardless of type or number of personal leaves.
3. 3The employee's position will be held open while an employee is out on an approved Personal Medical Leave up to 6 weeks beginning with the first day absent. This type of leave can be taken as a continuous leave only, and will run concurrent with other leaves under this policy

Personal Family Medical Leave

1. Eligible employees who have been employed for 90 days but who have not worked enough hours to qualify for FMLA or their family member (i.e. as defined in our FML Policy rules may request a Leave of Absence for a Personal Family Medical Leave to take care of a family member. Employees who have exhausted FMLA within the previous 12 months are not eligible to take Personal Family

Medical Leave. Employees must contact the BJC Leave Management Center (administered by Liberty Mutual) to request a Leave.

2. Employees are eligible for a total of 6 weeks of Personal Family Medical Leave in a rolling forward 12 month period starting with the first day of leave. Personal Family Medical Leave must be at least 14 days in length. Employees are eligible for a maximum total of 6 weeks of personal leave in a rolling 12 month period, regardless of type or number of personal leaves.
3. The employee's position will be held open while an employee is out on an approved Personal Family Medical Leave up to 6 weeks beginning with the first day absent. This type of leave can be taken as a continuous leave only, and will run concurrent with other leaves under this policy.

Personal Leave

1. Eligible employees who have been employed for 90 days may request a Personal Leave from their job for any reason other than a leave for their own medical condition or for family member's medical condition. Approvals for a Personal Leave are at the sole discretion of the employee's supervisor. Employees who have exhausted FMLA within the previous 12 months are not eligible to take Personal Leave. The supervisor will take into consideration departmental needs, employee's performance, work history, etc. when considering approval.
2. Employees are eligible for a total of 6 weeks of Personal Leave in a rolling forward 12 month period starting with the first day of leave. Personal Leaves must be at least 14 days in length and may not exceed 6 weeks in duration. Employees are eligible for a maximum total of 6 weeks of personal leave in a rolling 12 month period, regardless of type or number of personal leaves.
3. After first verbally securing the permission for the leave from their supervisor, the employee must contact the BJC Leave Management Center (administered by Liberty Mutual) to complete the Personal Leave application process. The employee's position will be held open while an employee is out on a Personal Leave for up to 6 weeks beginning with the first day absent. Supervisors should consult Human Resources when considering requests for Personal Leave. This type of leave can be taken as a continuous leave only and will run concurrent with other leaves under this policy.

Compensation and Benefits

1. Employees must use available PTO to supplement regular compensation in accordance with BJC's PTO Policy while on approved Leave of Absence and receiving a Short-Term Disability (STD) or salary continuation benefit. If an employee returns to work from an approved leave, but on a reduced schedule, an employee's available PTO will be used to supplement the employee's regular compensation. Employees, other than those excluded from BJC's Paid Time Off policy or by contract, requesting a leave of absence for the employee's own serious health condition must use 100% of their available PTO for the first 5 consecutive days of absence (the STD elimination period) and until the employee's short term disability (STD) benefit is approved. If an employee's STD approval takes longer than 5 consecutive days of absence, the employee's PTO will not be retroactively adjusted.
2. During a leave, employees are responsible to pay their portion of the benefits as though the employee continued in active employment. The benefit contributions due for coverage will be collected from PTO while the employee is on leave. Once PTO is exhausted the benefit contributions due will go into arrears and will be collected from the employee upon their return from leave to active employment by paying their current contribution due plus one extra contribution per pay period until all contributions are brought up to date. If the employee does not return all payments due, the arrears will become due and payable upon termination per BJC's Employee Indebtedness Policy. Any remaining balances are due to BJC no later than 60 days following the termination date.

Application for Leave

If an employee requires absence from work for one of the reasons listed above the employee must work with the Residency Program Director to be considered for a Leave of Absence. Application for all leaves described under this policy must be made through the BJC Leave Management Center (administered by Liberty Mutual) at 1.800.213.1580 or via web at www.myLibertyMutual.com.

For detailed information on this policy, please email Laura Hamann (RPD) at: Laura.Hamann@bjc.org

WORK ASSIGNMENTS WHILE AWAITING MISSOURI LICENSURE

A resident who is a graduate of an approved college of pharmacy, but has not yet received a Missouri Pharmacist license, may perform only work assignments not restricted by statute or regulation. The list below delineates the work assignments that a resident may or may not perform. This list holds for any pharmacy graduate status while awaiting licensure, examination results, and the next available testing date for the Pharmacy Board Examinations or seeking a temporary license.

The following activities may NOT be performed by a pharmacy resident pending Missouri licensure. A resident awaiting licensure:

- May NOT verify physician orders in EPIC.
- May NOT enter orders as a pharmacist in EPIC.
- May NOT sign for controlled substance deliveries and issuance or other paper work for scheduled drugs.
- May NOT check or prepare oncology chemotherapy unless he/she has completed the chemotherapy training class and has successfully passed the chemotherapy examination.
- May NOT enter or check outpatient prescriptions.

Residents should be licensed to practice as pharmacists with Medication Therapy Services certification within 90 days of the start date of residency. Failure to obtain a license by this deadline may result in termination or temporary leave. If the resident is granted temporary leave, then the program length will be modified to ensure 52 weeks per residency year. The decision to dismiss a resident for lack of licensure would be made between the Residency Program Director and Director of Pharmacy.

DUTY HOURS

The Missouri Baptist Medical Center Department of Pharmacy has adopted the ASHP policy on duty hours for Pharmacy Residents. Post-Graduate Pharmacy Education as in many specialties requires a commitment to continuity of patient care. At the same time as such continuity of care must take precedence (without regard to time of day, hours already worked, predefined call schedules, etc.), patients have the right to expect their care is being delivered by alert, healthy, responsible and responsive pharmacists. The Missouri Baptist Medical Center Pharmacy Department respects that the necessary balance between patient care and education is delicate and has endorsed the following minimal requirement for Pharmacy Residents. Your Program Director will discuss policies, which apply for your ASHP-accredited program. It is your responsibility to maintain records of your hours.

EMPLOYMENT

Post Residency Employment At MBMC

The completion of Pharmacy Residency training at Missouri Baptist Medical Center does not automatically qualify a pharmacist for a pharmacist position in the Department of Pharmacy at Missouri Baptist Medical Center. Pharmacy residents must complete an application for employment. Each application is evaluated with respect to Missouri Baptist Medical Center's criteria for a pharmacist, and only to the extent such positions are available.

Outside Employment/Moonlighting

Post-Graduate Pharmacy Education at Missouri Baptist Medical Center is a full time experience. Outside employment of Pharmacy Residents is not required or encouraged and may adversely affect your duty hours' requirement. Further, outside employment is not permitted without express, written authorization of the Program Director. If such authorization is granted, the Pharmacy Resident must obtain permanent Pharmacist licensure in the State of Missouri. Documentation of outside employment and the written authorization will be part of the Resident's file. For purposes of this agreement, outside employment is defined as the practice of pharmacy for financial remuneration in a setting not recognized as part of the training program by the Program Director and/or the Director of Pharmacy of the Hospital. A Resident who violates this prohibition may be subject to Disciplinary Action, including termination from his/her respective residency training program. In addition, Missouri Baptist Medical Center is not responsible for and will not defend or cover liability resulting from claims against Pharmacy Residents arising out of occurrences off Missouri Baptist Medical Center premises or other than pursuant to the Missouri Baptist Medical Center Pharmacy Resident appointment.

DISCIPLINARY ACTION, SUSPENSION, OR TERMINATION

Informal Procedures

Residency Program Directors are encouraged to use informal efforts to resolve minor instances of poor performance or misconduct. In any case in which a pattern of deficient performance has emerged, informal efforts by the Program Director shall include notifying the Resident in writing of the nature of the pattern of deficient performance and remediation steps, if appropriate, to be taken by the Resident to address it. If these informal efforts are unsuccessful or where performance or misconduct is of a serious nature, the Pharmacy Clinical Manager and Program Director may impose formal disciplinary action.

Formal Disciplinary Action

Disciplinary action up to and including termination may be initiated but is not limited to the following reasons:

1. Failure to satisfy the academic or clinical requirements of the training program.
2. Professional incompetence, misconduct, or conduct that might be inconsistent with or harmful to patient safety.
3. Conduct that is detrimental to the professional reputation of the Hospital
4. Conduct that calls into question the professional qualifications, ethics, or judgement of the Resident, or that could prove detrimental to the Hospital's patients, employees, staff, volunteers, or operations.
5. Violation of the bylaws, rules, regulations, policies, or procedures of the Hospital, Department, or training program, including violation of the Responsibilities of Residents set forth above.

Specific Procedures

Formal disciplinary action includes (1) suspension or termination (2) extension of the residency or fellowship or denial of academic credit that has the effect of extending the residency; or (3) denial of certification of satisfactory completion of the residency.

All academic and code of conduct disciplinary action will be addressed as stated in the BJC Corrective Action Policy. A first written notice will be issued for minor disciplinary actions or failure to achieve academic competencies. A final warning up to and including termination may be issued for a second minor violation in conduct, chronic minor violations, a serious conduct violation or continued poor performance in academic responsibilities in the residency program. For detailed information on this policy, please email Laura Hamann (RPD) at: Laura.Hamann@bjc.org

Reporting Obligation

Section 383.133 of the Missouri Revised Statutes requires the chief executive officer of any hospital or ambulatory surgical center to report to the State Board of Pharmacy any final disciplinary action against a pharmacist licensed in Missouri for activities which are also grounds for disciplinary action by the State Board or the voluntary resignation of any pharmacist licensed in Missouri against whom any complaints or reports have been made which might have led to such disciplinary action.

PROCEDURE FOR REVIEW OF ACADEMIC AND DISCIPLINARY DECISIONS

The Hospital recognizes that the primary responsibility for academic and disciplinary decisions relating to residents and residency programs resides within the department and the individual residency programs. Academic and performance standards and methods of resident training and evaluation are to be determined by the department.

The interests of the residents and the hospital are best served when problems are resolved as part of the regular communication between the residents and departmental officials in charge of the training program. Thus residents are encouraged to make every effort to resolve disagreements or disputes over academic or disciplinary decisions or evaluations by discussing the matter with the Pharmacy Clinical Manager or Program Director, as appropriate. A Missouri Baptist Medical Center Human Resources Business Partner is available to provide guidance in this effort. The resident may request a formal review by the Director of Pharmacy to dispute any formal disciplinary action described above. Should a resident receive 50% or more “Needs Improvement” on evaluation during any learning experience, the resident will be evaluated for possible remediation at the discretion of the Residency Advisory Committee.

The resident must submit a written appeal to the Director of Pharmacy within seven (7) calendar days following the date the resident received a written corrective action for academic or disciplinary performance issues. The Director of Pharmacy will review the matter and send to the resident, the Manager of Clinical Services, and the program director a written response detailing his/her decision within seven (7) calendar days of receipt of the appeal.

If the matter is not resolved, either by informal or formal means, at the departmental level, and the action taken by the department involves (1) suspension or termination (2) extension of the residency or denial of academic credit that has the effect of extending the residency; or (3) denial of certification of satisfactory completion of the residency program, then the resident may request a review of the departmental decision, which will follow the procedure set forth below. Decisions or actions other than those described in the preceding sentence are not subject to review under this procedure. The availability of this procedure for review of certain kinds of decisions in no way is intended to affect the right of the department and/or the Hospital to counsel and evaluate residents routinely on performance or progress in the normal course of the training program.

Executive over Pharmacy Appeal. The resident shall make the request for review in writing within seven (7) calendar days after the departmental Director’s decision to the Director of Human Resources or senior HR officer, stating he/she wishes to appeal the matter to the Executive over the area or his/her designee and describing the matter in dispute and all previous

attempts at resolution. The Executive over the area or his/her designee will investigate and send a written response to Human Resources within seven (7) days following their receipt of the appeal. Human Resources will then notify the resident and the Director of Pharmacy of the Executive’s decision. If the issue remains unresolved, the resident will have seven (7) calendar days to send a written appeal to the Director of Human Resources or senior HR officer for a hearing before the Pharmacy Residency Appeals panel.

Hearing Panel. The resident shall make the request for a hearing in writing to the Director of Human Resources or senior HR officer within 7 calendar days after receipt of the Executive’s decision that the matter has not been resolved. The Director of Human Resources or senior HR officer, who will serve as Chair and a non-voting member, shall appoint a five member hearing panel consisting of one Human Resources consultant, one pharmacy resident, one staff pharmacist, a Pharmacy Manager, and Clinical Manager or preceptor from an outside BJC residency program. No member who has been involved in the dispute in any way shall serve on the hearing panel.

At the hearing, both the resident and the Program Director may present evidence and witnesses, subject to limitations set by the chair based on relevancy or time, and may examine the evidence and witnesses presented by the other. The members of the hearing panel may also ask questions and request the presence of additional witnesses if deemed necessary. The hearing shall not be construed as a formal legal proceeding and formal rules of law or evidence shall not apply.

Subsequent to the conclusion of the hearing, the hearing panel shall deliberate in private and reach a decision as to its recommendation by majority vote. It shall make a written report and recommendation to the Director of Human Resources or senior HR officer. The Director of Human Resources or HR senior officer will forward the panel’s recommendations to the Executive over the area or his/her designee for final review. The recommendation of the hearing panel shall be accepted, rejected or modified by the Executive over the area or his/her designee, in writing, within 7 calendar days after the date of the recommendation. The Director of Human Resources or senior HR officer will send a final written decision to the resident and the Director of Pharmacy.

The decision of the Executive over the area, or their designees, shall be final. For detailed information on this policy, please email Laura Hamann (RPD) at: Laura.Hamann@bjc.org

Applicability. This procedure applies to all Pharmacy Residents in ASHP-accredited residency programs at Missouri Baptist Medical Center.

RESIDENCY ADVISORY COMMITTEE

MEMBERS

Laura Hamann, PharmD, BCPS – Chair

Anastasia Armbruster, Pharm.D, BCPS, BCCP

Shane Austin, PharmD, BCPS

Naomi Barasch, PharmD, BCPS

Amanda Buckallew, PharmD, BCPS

Yvonne Burnett, PharmD, BCIDP

Natalie Freiburger, PharmD, BCPS

Thomas Hall, PharmD, BCPS

Meredith Hampton, PharmD

PGY1 Pharmacy Residents

COMMITTEE GOALS AND OBJECTIVES

The Residency Advisory Committee is composed of preceptors and residents. The Committee is responsible for:

1. The general supervision of the Residency.
2. Assuring that residents and the program meet goals and objectives.
3. Approving residency program and rotation goals and objectives.
4. Reviewing individual resident plans, goals, and rotation objectives.
5. Reviewing and approving resident research projects.
6. Recruiting residents.
7. Assuring that the Program meets ASHP standards.
8. Reviewing and improving the quality of the Residency Program.
9. Developing new residency practice opportunities.
10. Approving preceptors and rotations.

SCHEDULE

The Committee meets quarterly, starting in July of each year.

RECRUITMENT AND SELECTION OF RESIDENTS

The Missouri Baptist Medical Center PGY1 Residency participates in the Resident Matching Program of the American Society of Health Systems Pharmacists (ASHP). Missouri Baptist Medical Center recruits residents through mailings, meeting contacts, referrals, and the Residency Program Showcase at the ASHP Midyear Meeting. At the Midyear Meeting, the Program Director, current residents and all preceptors in attendance participate in the recruitment of candidates for the residency program.

Residency candidates must submit a copy of their curriculum vitae and a letter requesting consideration for entrance into the program, as the initial program application.

In January, the Residency Advisory Committee ranks all candidates, and develops a list of candidates who will be offered the opportunity for on-site interviews. An appropriate number of qualified candidates are invited for a one-day interview with preceptors and managers of the Pharmacy Service. Interviews include a presentation to Pharmacy Service professional staff. Interviews are completed during January and February.

After each interview is completed, each interviewer must submit an Interview Evaluation Form describing their evaluation of the candidate. The evaluation must be completed promptly after each interview. The scores of all evaluators are averaged to determine the initial rankings of candidates. A summary of written comments is also prepared to supplement this ranking.

Following completion of all candidate interviews, each member of the Residency Advisory Committee prepares an ordinal list of all candidates. These lists, an overall ranking based on interview scores and the Residency Advisory Committee, prepare the interview comments for review. The Committee reviews, modifies and approves the final rank listing for submission to the ASHP PGY1 Pharmacy Residency Matching Program.
